GROUP ACTIVITY 2

WRITE DOWN USER STORIES FOR THE MINI PROJECT

Prepared by

Roll No	Gr No	Name of students
232036	21910632	Mayank Sahu
232032	21910416	Siddhesh Kothadi
232045	21910716	Atharva Parikh
232030	21910598	Sidhant Khamankar
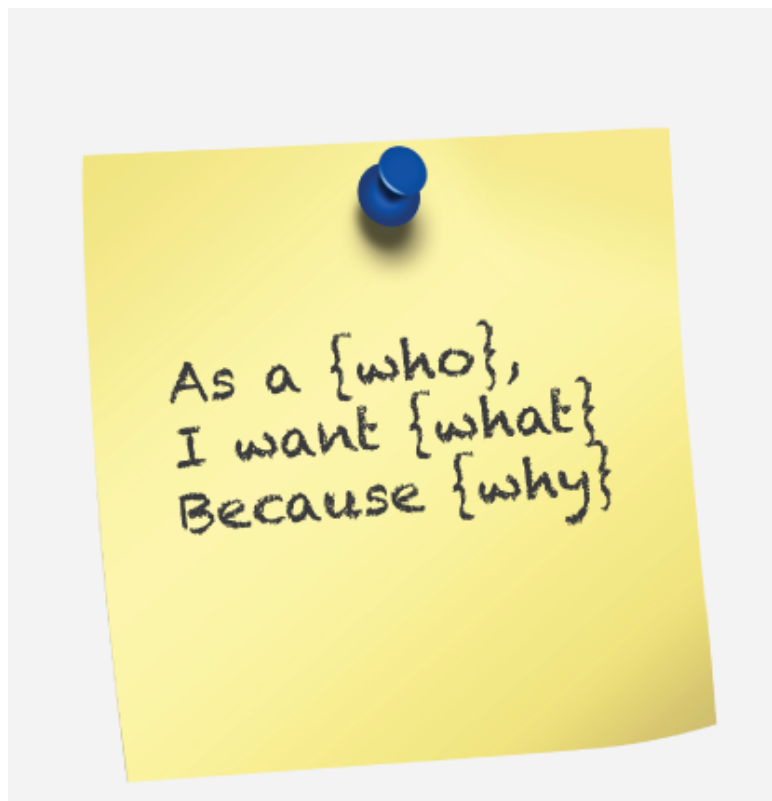

Patient User Stories

1. As a new user I want to be able to register myself in the system so I can use it.
2. As a registered user I want to log in so I can access the patient dashboard.
3. As a patient I want user friendly user interface and user experience because I will have a seamless experience.
4. As a patient I want my data to be secure for privacy purposes.
5. As a patient I want a prescription after appointment in digital format and the option to order medicines online for a coherent experience.
6. As a patient I want to request an appointment according to available timing slots.
7. As a patient I want to search a doctor on the basis of rating, specialization and cost.
8. As a patient I want to pay the doctor's fee online through a secure payment gateway.
9. As a patient I want to give ratings and feedback for the service that was provided to me.
10. As a patient I want to give feedback to the Developers for any malfunctionality.

Doctors User Stories

1. As a Doctor I want to login into the system so I can use it.
2. As a Doctor I want to connect with patients either by video call or chat for proper treatment.
3. As a Doctor I want a user friendly interface and seamless experience.
4. As a Doctor I want some prior information about patients for accurate treatment.
5. As a Doctor I want to see my appointment and confirm the requested appointment of the patient
6. As a Doctor I want an option to cancel or reschedule the appointment.
7. As a Doctor I want to report a patient in case of any misconduct.
8. As a Doctor I want to check the payment history of the patients I have treated.
9. As a Doctor I want to give feedback to the Developers for any malfunctionality.

Admin User Stories

1. As an Admin of the hospital I want to add new doctors to the database after their official verification.

Developers User Stories

1. As a Developer I want fast fetching speed for websites so that site will load on slow internet too.
2. As a Developer I want better structure of data so that it's easy to handle.
3. As a Developer I want zero vulnerabilities in the system for data protection.
4. As a Developer I want immediate shut down of infected servers in case of security breach or malicious code is placed on hardware.
